

JOSEPH GUIDICI JR.

Bethpage, NY

contact@josephguidici.com

EDUCATION

Commonwealth University of Pennsylvania – Bloomsburg

Anticipated Complete, May 2028

Bachelor of Science in Digital Forensics & Cybersecurity

GPA – 3.87

Minor in Information Technology & Analytics

SKILLS

- **Operating Systems:** Kali Linux, Windows
- **Penetration Testing Tools:** Metasploit, Nmap
- **Programming & Scripting:** Python, SQL

RELEVANT EXPERIENCE

Penetration Testing Home Lab

Anticipated Complete, July 2026

- Completing a 12-lab penetration testing series covering network reconnaissance, OSINT, vulnerability scanning, exploitation with Metasploit, web application testing, password cracking, privilege escalation on both Linux and Windows, wireless attacks, and Active Directory attacks, culminating in a full red team simulation.

Google Cybersecurity Certificate

June 2026

- Working on a 9-course program issued by Google via Coursera, covering foundational and applied cybersecurity skills across network security, Linux, SQL, threat detection, vulnerability management, and Python automation.
- Simultaneously completing the corresponding 7-lab series covering a security audit and risk assessment, network traffic analysis with Wireshark, Linux file permissions and user management, SQL security filtering, vulnerability assessment using the NIST framework, incident detection and response documentation, and Python log parsing automation.

All lab documentation and write-ups for the above are publicly available at github.com/joseph-guidici

Cybersecurity Pre-College – Stevens Institute of Technology, Hoboken NJ

June 2023

- Completed an intensive pre-college cybersecurity program at Stevens Institute of Technology, gaining foundational knowledge in network security, cryptography, and social engineering defense.
- Developed an understanding of how attackers exploit human and technical vulnerabilities, building early intuition for the offensive mindset central to penetration testing.

OTHER EXPERIENCE

Team Leader – Chick-Fil-A Levittown, Levittown, NY

October 2023 - Present

- Monitored team performance and order accuracy in a fast-paced environment, identifying and resolving discrepancies in real time while maintaining high service standards.
- Oversaw daily financial operations including register auditing and cash accountability, ensuring procedural compliance and holding team members accountable for any discrepancies identified.
- Led a team of crew members by providing mentorship, performance guidance, and conflict resolution to maintain a collaborative, high-accountability work environment.
